2 x Test vends to check operation and drinks quality. Follow standard cleaning guide, sanitise selection panel and door parts

4 to 90 days

**Hot tank flush.**  
Isolate machine from power, drain hot tank. Reconnect power and allow 15 mins for machine to refill and reheat.

**Chilled system flush (if fitted)**  
Use flush switch to dispense 1 x bucket full of water. (Operate switch in pulses of 30 seconds per flush)

**Check drinks quality**  
Check and remove any cups that have exceeded out-of-packet shelf life (4 to 12 weeks) . Perform test vends to check operation and drinks quality.

**Cleaning.**  
Follow all standard cleaning guides. Sanitise selection panel and door parts.
