                                                                                                                                                 |      |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |             |     |      |      |          |     |      |      |             |       |      |      |             |      |    |     |               |     |    |    |               |     |      |     |                        |     |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                  |      |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |             |     |      |      |          |     |      |      |             |       |      |      |             |      |    |     |               |     |    |    |               |     |      |     |                        |     |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                  |      |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |             |     |      |      |          |     |      |      |             |       |      |      |             |      |    |     |               |     |    |    |               |     |      |     |                        |     |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |             |     |      |      |          |     |      |      |             |       |      |      |             |      |    |     |               |     |    |    |               |     |      |     |                        |     |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                  |      |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |             |     |      |      |          |     |      |      |             |       |      |      |             |      |    |     |               |     |    |    |               |     |      |     |                        |     |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |             |     |      |      |          |     |      |      |             |       |      |      |             |      |    |     |               |     |    |    |               |     |      |     |                        |     |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                  |      |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |             |     |      |      |          |     |      |      |             |       |      |      |             |      |    |     |               |     |    |    |               |     |      |     |                        |     |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |             |     |      |      |          |     |      |      |             |       |      |      |             |      |    |     |               |     |    |    |               |     |      |     |                        |     |      |     |                  |    |     |     |                     |     |      |      |           |     |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |      |     |     |             |      |    |    |               |     |   |    |               |    |      |     |                        |    |      |     |                  |    |     |     |                     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |     |               |     |    |    |               |    |     |     |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |     |      |      |             |     |      |      |          |      |      |      |             |     |    |    |             |      |    |    |               |     |   |   |               |    |      |      |                        |    |     |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |    |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |                  |    |     |     |                     |    |     |     |           |      |      |      |             |     |      |      |          |      |       |      |             |       |     |     |             |      |    |     |               |     |    |    |               |     |      |      |                        |     |      |     |
